

Why did verkor join the next 40 program?

This announcement rewards Verkor and recognizes its importance in the development of the electric battery sector, which is essential for French and European sovereignty and competitiveness. Verkor, a European pioneer in low-carbon batteries designed for electric vehicles, is among the 2023 class of the Next 40 program.

Is verkor the next 40?

Verkor, a European pioneer in low-carbon batteries designed for electric vehicles, is among the 2023 class of the Next 40 program. The latter offers support designed for French scale-ups capable of becoming world-class technological leaders. This announcement rewards a very rich year for Verkor and marks an important milestone in its development.

Is verkor ready for a large-scale industry in 2022?

ilience and sovereignty In 2022, Verkor prepared to ramp up to become a large-scale industry. On the process development front, the sample batteries have been successfully tested. On the strategic front, we are making sure that our activities are both financially viable and sustainable for all the stakeholders.

How much financing did verkor secure for its first Gigafactory?

With this new transaction, the total amount of financing secured by Verkor for its first Gigafactory and the Verkor Innovation Centre peaks at more than 3 billion euros. This additional financial support solidifies the trust of the banking partners in the impact of Verkor's project to provide low-carbon,...

Where is verkor based?

ort. Scope of the report The report covers Verkor's existing facilities (headquarters and R&D lab at the Verkor Innovation Centre, in Grenoble) and on-construction production centres (pilot line at the Verkor Innovation Centre in 2023; Dunkirk).

How many meetings did verkor conduct during the consultation process?

tional consultation process which lasted more than 3 months. During this consultation, Verkor held 12 meetings (from formal public meetings to mobile contact centres), covered 8 territories for the consultation, distributed close to 15 000 consultation documents, and 5000 flyers. More than 100

Linklaters advises the European Investment Bank and the commercial lenders on the financing of the construction of Verkor's first electric battery Gigafactory located in Dunkirk, which will have an initial production capacity of 16 GWh per year and a total amount of 1.3 billion euros. With this new operation, the total amount of financing secured by Verkor for its first ...

The Saudi Central Bank (SAMA) announced this year's launch of its specialized program, the Professional Learning Partnership, in support of the financial services industry in the Kingdom. The program targets recent

Saudi graduates (Bachelor's and Master's level) of accredited local or international universities.

The integration of LFP and Cell-to-Pack technologies will enable Ampere to reduce by around 20% the cost of batteries in its vehicles from beginning of 2026. With four leading battery partners, Ampere is accelerating ...

Press Release - 14/09/2023 PRESS RELEASE Verkor secures more than EUR2 billion to launch high performance battery gigafactory in France and accelerate future sustainable mobility Grenoble - 14 September 2023 - Verkor secures more than EUR2 billion in financing following the signing of a minimum of EUR850m Series C funding¹, approval of European Investment Bank

Verkor est une entreprise industrielle française basée à Grenoble. Bénéficiant du soutien de l'EIT InnoEnergy, du Groupe IDEC, de Schneider Electric et de Capgemini, la société accélère la production de batteries bas carbone en France et en Europe pour répondre à la demande croissante de véhicules ...
