

What does gridmarket do for Sint Maarten?

GridMarket was chosen as Sint Maarten's exclusive renewable energy partner to help the island reach 85% renewable penetration and 100% heavy fuel oil free by 2030. Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and make corresponding infrastructure upgrades.

What is Sint Maarten's national energy policy?

renewable energy.<sup>10</sup> The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

How much does electricity cost in Saint Martin?

For Sint Maarten, the equivalent rates are roughly \$0.35/kWh. Like many islands, Saint Martin is highly dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Led by the Ministry of General Affairs, the Government of Sint Maarten remains committed to the continuous implementation of the Sint Maarten Digital Government Transformation Project. As a step towards implementing the strategy, the project will introduce a series of interventions in the coming years.

Taking a substantial step toward strengthening the security of critical power infrastructure, Convergent and Amulet Critical Infrastructure collaborate on a mission to enhance power grid security. Convergent, known for proficiency in comprehensive security systems, partners with Amulet, recognized for advanced ballistic mitigation solutions. Together, they are ...

This milestone is a testament to the diligent efforts and coordination between various stakeholders committed to addressing the island's energy needs. Prime Minister Dr. Luc Mercelina stated, "The arrival of these ...
