What is a lithium-ion battery charging Safety Cabinet?

Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Made with a proprietary 9-layer ChargeGuard(TM) system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. [Shop Now](#)

What is a lithium ion battery charging and storage cabinet?

The new Justrite lithium ion battery charging and storage cabinet provides the ideal storage solution. Featuring ChargeGuard(TM) technology, this new cabinet was designed especially for minimizing the risks of battery fires and thermal runaway that arise when storing and charging lithium ion batteries in the workplace.

What are the safety guidelines when charging and storing lithium-ion batteries?

To minimize these risks, it is important to follow safety guidelines when charging and storing lithium-ion batteries. This includes using the appropriate charger, avoiding overcharging or undercharging, storing batteries in a cool and dry place away from flammable materials, and disposing of damaged or old batteries properly.

What are Justrite Li-ion battery charging and temporary storage cabinets?

The new Justrite li-ion battery charging and temporary storage cabinets were designed to reduce the risks of battery fires and thermal runaway.

How many receptacles does a battery charger have?

With eight receptacles, it enables simultaneous charging of multiple batteries (up to a maximum of 2kWh), providing a reliable and efficient solution. The lightweight and compact benchtop design allows for easy relocation, and the lockable doors ensure controlled access to the batteries, preventing theft.
