SES AI Corporation a global leader in the development and manufacturing of high-performance Li-Metal batteries, today announced that it signed an agreement to enter the next phase of its existing joint development agreement ("JDA") with Hyundai Motor Company ("Hyundai Motor") and Kia Corporation ("Kia") to start developing B samples.

Instead of the face-to-face inspection, program participants may enter and leave Korea by using Smart Entry Service auto-gates, which only take less than 12 seconds. This convenient program is widely introduced in many countries such as Global Entry of U.S.A., Privium of the Netherlands, e-Gate of Hong Kong, Smart Gate of Australia and so on.

As part of the agreement, Hyundai Motor and Kia - SES AI will build a dedicated B-sample cell development, assembly and testing facility in Ui-Wang, South Korea starting later this year, and SES AI will build and operate one of the largest capacity Li-Metal lines in the world within this new facility.
