Sigenergy has officially launched its groundbreaking intelligent management platform, Sigen Cloud.

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Does Timor-Leste have electricity?

Timor-Leste has rapidly expanded electricity access to more than 83 per cent of the population but the country has yet to achieve energy security. Consumer costs, even with government subsidy, remain high and outages are common. In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators.

What is a SIGEN C&I inverter?

Sigen C&I Inverter comes with a reserved battery port at the bottom, making it the world's most powerful hybrid inverter with PCS built in. Our SigenStack Energy Storage System can be seamlessly connected at any time, allowing for easy upgrades to a modular PV +ESS system. *Take a 40-foot HQ container as an example

Energy Imports Net (% of energy use): It is estimated as energy use less production, both measured in oil equivalents. A negative value indicates that the country is a net exporter. Energy use refers to use of primary energy before transformation to other end-use fuels, which is equal to indigenous production plus imports and stock changes, minus exports and fuels supplied to ...

However, Timor-Leste's GDP is expected to grow by 2.8% in 2023 and by 2.9% in 2024. Timor-Leste is still a country that depends heavily on the Petroleum Fund and the government is aware of the urgent need to diversify the national economy's sources of funding, particularly through the development of mining activities.
