

Silver energy Iraq

How does Iraq generate electricity?

Iraq's electricity generation primarily depends on fossil fuels. In 2021, natural gas was the largest source at 57.3% of the total, followed by oil at 36.7%. Renewable energy, mainly from hydroelectric power, contributed 5.9%. As of 2023, the 30 gigawatts (GW) of installed capacity cannot meet summer peak demand.

What will Siemens Energy do for Iraq?

Implementing Siemens Energy's roadmap will see Iraq run its power plants with its own fuel instead of imported gas or environment-damaging heavy fuel oil, thereby significantly reducing its expenditures on the energy sector as well as air pollution.

Is Iraq a good country for solar energy?

Iraq holds abundant oil and gas resources and has strong solar PV potential. Its production to 2030 is set to be the third largest contributor to global oil supply. By the same year, the government expects that renewable capacity will amount for 5% of the country's total system capacity.

Will Iraq's Electricity Supply be improved if we just improve efficiency?

"Even if we just improve on the efficiency side," he says, "the delivery of electricity to Iraq's homes and factories will be improved." Iraq's current power generation capacity stands at 19 gigawatts according to former officials at the ministry of electricity.

How much energy does Iraq use?

Iraq still partly relies on outside energy sources to feed its electricity grid, importing up to 1,200 megawatts of electricity per year and up to some 1.2 billion standard cubic feet per day of gas when demand hits a peak during baking summer times.

What percentage of Iraq's electricity comes from natural gas?

Nearly all (about 98%) of Iraq's electricity generation is from oil and natural gas.⁶² Natural gas use in the electric power sector increased after 2016 because Iraq began importing natural gas from Iran to increase its own supplies. Hydroelectricity accounts for most of the remaining share of electricity production.⁶³

Sheri Charles is an entrepreneurial executive with 25 years' experience in business operations and 15 years' experience in the oil and gas service industry. As Silver Energy Services' Chief Operating Officer, she is dedicated to creating a strong team that will maximize Silver's organizational capabilities, operations, and staff ...
