

Skyray solar Venezuela

What does Skyray do?

Skyray, a new company founded by Everoze, is purely focused on design and engineering services for large scale ground-mount PV (including new-build solar storage) and commercial rooftop projects.

What services does Skyray offer?

Skyray offers focused design and construction management services to ensure better alignment between the EPC and long term owner, and delivery of high quality, cost-competitive infrastructure assets.

Has Everoze created a new company named Skyray?

Everoze has formally launched a new company called Skyray. Skyray's team provides design, engineering and site services to owners, developers and EPCs in the large-scale PV market (including new-build solar-storage).

Why should you invest in Skyray?

Skyray provides an opportunity to apply our learning to design and engineer better PV projects. Aligned incentives: Investors are buying in pre-construction with a 30-year investment horizon and having projects delivered by EPC contractors with a 3-year quality horizon.

¿La energía solar ayudará a Venezuela a superar su profunda crisis? Mientras millones de personas sufren cortes diarios de electricidad, los esfuerzos por adoptar la energía solar ofrecen esperanza para el futuro

SkyRay Solar is first succeed company in Marine Coating tank technology in solar water heater. Sunlight is a most available natural energy and SkyRay Solar converts into renewable energy. Solar Water Heater is one time investment equipment. Customers will get benefits from it for years without any extra cost and is "environment friendly".
