

What is Slovenia's electricity consumption?

View the detailed consumption trends at country level (graphs, tables, analysis) in the Slovenia energy report
Electricity consumption remained stable at 13.8 TWh in 2019, after 2.1%/year growth over 2009-2018. Before the economic crisis, electricity consumption grew quite rapidly (+3.3%/year between 2000 and 2007).

How much does electricity cost in Slovenia?

Industry-specific and extensively researched technical data (partially from exclusive partnerships). A paid subscription is required for full access. In May 2024, the average wholesale electricity price in Slovenia stood at 73.2 euros per megawatt-hour, one of the lowest power prices in the country since the summer of 2021.

Is biomass a source of electricity in Slovenia?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Slovenia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Which country imports the most oil in Slovenia?

View the detailed fundamentals of the market at country level (graphs, tables, analysis) in the Slovenia energy report
As the country's only refinery ceased operating in 1998, Slovenia imports all its oil products (4.9 Mt in 2019). Italy is its largest supplier (26% in 2019), followed by Russia (20%) and Greece (11%).

In terms of industry chain prices, the average price for energy storage systems was RMB 1.2/Wh for 8 projects with clear prices, while EPC energy storage recorded an average price of RMB 1.5/Wh for 5 projects with certain prices. The industry chain's price has stabilized over the past three months. European Household Energy Storage:

Market trends in early December: Oil, gas and CO2 prices show volatility; European electricity demand and price trends: Weekly overview and forecasts; Europe: Solar and wind energy production trends; Serbia and Russia collaborate on oil pipeline project to diversify energy supply and enhance security

We heard from system integrator, developer and EPC delegates at the Energy Storage Summit EU in London last month about the implications of falling BESS prices. As Energy-Storage.news reported last month, global ...

Energy storage - trends and challenges in a rocketing market ... storage, revenues stacking, trading price floor
Economic viability is still questionable in most e-storage applications
The value of flexibility provided by e-storage ... Trends in Slovenia Trends in the Netherlands

Energy-Storage.news has been told by a local source that the Croatia project is the largest in the country.

Bernard said that NGEN's 100MW/200MWh of energy storage in Slovenia "cover half of the system ...

Slovenia Lithium-ion Battery Energy Storage Systems Market is expected to grow during 2023-2029 Slovenia Lithium-ion Battery Energy Storage Systems Market (2024-2030) | Trends, ...

Slovenia Data Center Energy Storage Market is expected to grow during 2023-2029 Slovenia Data Center Energy Storage Market (2024-2030) | Outlook, Segmentation, Competitive Landscape, Industry, Share, Growth, Companies, Trends, Forecast, Value, Analysis, Size & ...
