

What is the Slovenian energy policy?

The purpose of the measure is to accelerate the deployment of investments in renewable energy production and energy storage, with the aim to foster the transition to a net-zero economy. The Commission found that the Slovenian scheme is in line with the conditions set out in the Temporary Crisis and Transition Framework.

Does Slovenia have gas storage facilities?

Slovenia does not have gas storage facilities, with companies dependent on infrastructure in Austria and Croatia. Slovenia has expressed interest in securing U.S. LNG sources via terminals in Krk, Croatia, or Rovigo, Italy, to diversify its supply away from Russia.

What does the European Commission's EUR150 million scheme mean for Slovenia?

The European Commission has approved a EUR150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in line with the Green Deal Industrial Plan.

What does EU state aid mean for Slovenia?

European commission. The European Commission (EC) on Friday approved, under EU state aid rules, a EUR-150-million (USD 161m) scheme in Slovenia that aims to support the expansion of renewable energy, heat and energy storage.

Is the Slovenian scheme in line with the temporary crisis & Transition framework?

The Commission found that the Slovenian scheme is in line with the conditions set out in the Temporary Crisis and Transition Framework. In particular, the aid (i) will be granted on the basis of a scheme with an estimated capacity volume and budget; and (ii) will be granted no later than 31 December 2025.

State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems (BESS).

18.11.2024 - Slovenia's HSE restarts 539 MW coal unit 1 day early. 15.11.2024 - Serbia plans to deepen energy ties with Hungary - minister. 14.11.2024 - HSE to shut down 539 MW Slovenian coal unit for 5 days. 13.11.2024 - Serbia launches 1st waste to energy unit as it looks to curb coal

The Sincro.Grid project passed another milestone with the start of the trial operation of two battery storage units with 10 MW in total power. ... Battery storage systems at substations Okroglo and Pekre in Slovenia have started trial operations within a joint endeavor with Croatia. The two units have 5 MW each and a storage time of five hours ...

Image: NGEN veloper NGEN is deploying the largest battery energy storage systems (BESS) in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too, CEO and co-fou ... Energy-Storage.news"

publisher Solar Media will host the inaugural Energy Storage Summit Central Eastern Europe on 26-27 September this year in Warsaw ...

June 15, 2023: The European Commission said on June 9 it had approved a EUR150 million (\$163 million) state-aid scheme to develop battery storage and renewables in Slovenia. This follows ...

The Kozjak pumped hydropower project in Slovenia consists of a 440 MW plant and a 400 kV transmission line, CEO of state-owned utility DEM Damjan Seme said. The company is also working on a project for two battery ...

The Kozjak pumped hydropower project in Slovenia consists of a 440 MW plant and a 400 kV transmission line, CEO of state-owned utility DEM Damjan Seme said. The company is also working on a project for two battery storage units of 30 MW each, alongside endeavors in the areas of solar and wind power and geothermal energy.

Slovenia Coal Consumption. Following a downward trend since 2016, lignite consumption dipped by 9% in 2021 and by 18% in 2022 to 2.6 Mt. Previously, it had eroded between 2002 and 2012 (by 1.2%/year), before collapsing in 2013 and 2014 (-15%/year) due to much lower demand from the power sector, the main consumer of lignite (98% in 2022).

A 10MW/50MWh battery energy storage system (BESS) spread across two substations in Slovenia has started a trial and testing period. The BESS projects are located at the Okroglo and Pektre substations and started their trial period this month, the company launching them announced.

The European Commission has approved a EUR150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in line with the Green Deal Industrial Plan.

Simulations conducted in this work confirm, that the stacking of applications is more lucrative than single-use operation and the techno-economic impact of multi- use operation strategies on the energy storage system is explored. The rapidly falling capital expenditures and rising energy and power densities of battery energy storage systems are leading to more ...

The growing penetration of renewable energy and electric vehicles will require new solutions to reduce imbalances in the energy market. One of the companies addressing this challenge is NGEN, an enterprise ...

Battery energy storage systems, or BESS, are a type of energy storage solution that can provide backup power for microgrids and assist in load leveling and grid support. There are many types of BESS available depending on your needs and preferences, including lithium-ion batteries, lead-acid batteries, flow batteries, and flywheels.

June 15, 2023: The European Commission said on June 9 it had approved a EUR150 million (\$163 million)

Slovenia ses energy storage

state-aid scheme to develop battery storage and renewables in Slovenia. This follows a spate of recent approvals for EU member states to support battery storage-related projects, amid concerns the bloc is lagging behind the US and Asia in ...

NGEN, a developer based in Slovenia, has celebrated the installation of a 22MWh grid-scale battery energy storage system (ESS) supplied by Tesla in what is thought to be the product's first deployment in the Balkans. ... Energy-storage.news emailed NGEN to request confirmation and for more information this morning, receiving confirmation that ...

EU approves Slovenia EUR150 million for renewables, energy storage. The European Commission has given the go-ahead to a EUR150 million (US\$160 million) state aid scheme for renewable energy and energy storage in ...
