

Solar Mounting System Order Online

Where can the ground/roof mount be used?

The Ground/Roof Mount can support solar installations in a wide range of locations. Great for use in off-grid applications and on flat roof structures. Our innovative solar module racking structures are designed to install quickly and provide secure mounting for modules from nearly all manufacturers.

What is Tamarack solar products?

Tamarack Solar Products manufactures innovative solar module mounting structures that are designed to install quickly and provide a secure mounting to a pole, the ground, or on a roof or wall. Economical, attractive, easy to install, and sporting built-in wire management. Makers of the industry's original single clamp design--yup, that's us!

What is included in a solar package?

Solar packages include everything you need to get your residential system up and running. Simply determine your required energy use and select the solar kit that is right for your home. SunWatts can help you find and install the perfect solar kit for your home.

Should you buy a solar home kit?

The wattage that you can harness generally increases with the amount you spend on your solar home kit. More expensive models have more solar panels. These relatively inexpensive kits can save you significant amounts of money on your energy bill. A solar home kit is a great investment to supply your home with clean, renewable power.

What training does a solar installer need?

Our on-demand training courses are developed by a team of solar professionals who have trained hundreds of installers on Pitched Roof Comp, Tile, and Ground Mount. Many courses also provide NABCEP CE's. Whether you're new to solar, training your crew, or refreshing your credentials, the Installer Certification Program was built for you.
