

Renewable power plants operator Voltalia SA (EPA:VL TSA) on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021.

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", ...

A unique baseload renewables project that combines the world's largest hydrogen power plant with a 16MW electrolyser, a 3MW fuel cell, 55MW of solar panels and 20MW/38MWh of batteries has begun construction ...

HDF Energy's Renewstable solution combines a 55 MW solar farm with what the company says is the world's largest renewable energy storage solution, to provide a ground-breaking 140 MWh capacity, based on hydrogen for use in a fuel cell system. This is supported via secondary storage using batteries.

A unique baseload renewables project that combines the world's largest hydrogen power plant with a 16MW electrolyser, a 3MW fuel cell, 55MW of solar panels and 20MW/38MWh of batteries has begun construction in French Guiana.

In French Guiana, EDF now has eight solar facilities in service, including three that are equipped with battery storage systems. It represents close to 20 MW in total capacity.

Renewable power plants operator Voltalia SA (EPA: VLTSA) on Thursday introduced the commissioning of its 5-MW Parc Sable Blanc solar farm with an incorporated storage space system in French Guiana.

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.
