Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

Solar panels convert the light from the sun into electricity, with no moving parts they are very reliable a 30 year life is realistic, that means with payback averaged at 9 years, you can have 21 years of free electricity! Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity).

Air Source Heat Pumps A highly recommended heat pump manufacturer and popular choice with our customers is Mitsubishi. For a typical 3 or 4 bedroom property in the Isle of Man we would install a heat pump out of their EcoDan range, an 11.2kw Ashp complete with a 200L cylinder would cost approximately £163,12,500, this includes installing and decommissioning of existing ...
