Will a 250 kW solar array save Phillips County energy?

The 250-kW solar array will generate \$46,000 in yearly savings for Phillips County and produce enough energy to offset much of the electric utility consumption for the courthouse, health department, and multi-agency justice complex. It will help the County reduce energy consumption for these buildings.

Where is the solar array located in Little Rock?

The solar array is located near the justice complex in Helena. It is one component of the turnkey solution that Little Rock-based Entegrity Partners put together, which also called for upgrading to more efficient lighting.
