

Solar factory in Belize

Does Belize use solar power?

Belize uses solar power on a smaller scale, with the Government having installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid. The Government of Belize, along with Belize Electricity Limited (BEL), intends to launch a pilot project introducing electric vehicles.

Does the University of Belize have a solar system?

The University of Belize has a solar photovoltaic (PV) system that supplies 0.1% of the country's electricity supply. Biomass supplies 8.9% of the country's needs, but demand currently exceeds supply of biomass. In 2014, the PUC issued a request for proposals for 60 MW of baseload generating capacity and 15 MW of solar or wind generating capacity.

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Who installs the Orange Gallery Solar System?

We (The Orange Gallery) were the first official grid-tied system in Belize. Our system was installed by SESB and we have been powering our operations with free energy from the Sun for a few years now. We love it and are happy to recommend SESB!" Which solar system is right for me?
