

## Solar now contacts Libya

Will Libya build a 500 MW solar park?

General Electricity Company of Libya (Gecol), a state-owned utility, plans to build a 500 MW solar park in the Sadada region, 280 kilometers southeast of Tripoli, in partnership with French energy giant TotalEnergies.

Will Libya achieve 4GW of solar and wind power by 2035?

The Government of National Unity in Libya has initiated the National Strategy for Renewable Energy and Energy Efficiency, outlining plans for achieving 4 GW of combined solar and wind capacity by 2035.

What is the largest solar energy project in Libya?

In June 2022, Total Energies, in collaboration with the General Electricity Company of Libya (GECOL) and REAoL, launched the Sadada Solar Energy 500 MW project in Al-Sadada, which is set to become the largest of its kind in the country.

Is France taking part in Libya's solar project?

The French group, which is taking part in several oil production projects in Libya, has signed a Memorandum of Understanding (MoU) for the solar initiative with power producer General Electricity Company of Libya. The pact was sealed during the Libya Energy & Economy Summit, an international energy and economic conference being held in Tripoli.

How much solar power does Libya have?

According to the International Renewable Energy Agency, Libya only has 6 MW of installed PV capacity. In its strategic plan for renewables for the 2013-25 period, the Libyan government has set targets for 300 MW of PV by 2020 and 450 MW by 2025. It has also set targets to build 150 MW of concentrated solar power by 2020 and 800 MW by 2025.

Will GECOL build a solar plant in Libya?

A recent MOU between UAE-based Alpha Dhabi Holding and GECOL aims to construct two additional solar plants in Libya, with a target capacity of 2 GW. Notably, Libya's vision for its renewable energy sector transcends its borders and aims to capitalize on its strategic position as the North African gateway to Europe.
