A solar panel battery can cost between EUR1,500 to EUR7,000 and with proper maintenance, can last up to 15 years. There are no grants available for batteries. ... Solar panel storage batteries cost between EUR1,500 to EUR7,000 to purchase and install. There are several factors that will affect your final price including:

The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates. In such a scenario, a solar battery storage system can come in handy for using electricity without having to pay such a high price.
