

Solar panel dealers near me Georgia

Who is the best solar company in Atlanta?

The highest-rated local solar company in Atlanta is Better Tomorrow Solar, with a rating of 4.90 stars. What are the advantages and disadvantages of solar power? The main advantages of solar power are that it can reduce or, in some cases, 100% erase your electricity bills, improve your home's value and bring down your carbon footprint.

Is Georgia a good place to install solar panels?

Georgia is an ideal area for property owners who are considering installing solar panels. Known for more than just delicious peaches, Georgia has a long solar history and is poised to be one of the fastest-growing solar markets in coming years. With a strong net metering policy and plenty of sunlight hours throughout the year, Georgia is an excellent choice for solar panel installations.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.

How much does a 6 kW solar system cost in Georgia?

A 6 kW solar system will cost about \$13,980 in Georgia before incentives. After the 30% federal solar tax credit, this drops to \$9,786, or about \$1.63 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed and how you finance it.

Do you need a license to install solar panels in Georgia?

In Georgia, a solar installer must be associated with a licensed electrical contractor. You can find out if an electrical contractor has the required license at the Georgia Secretary of State's website. Financing options Not everyone has thousands of dollars to spend on a solar panel installation.

Are solar incentives a good idea in Georgia?

Solar incentives and rebates can cut the cost of installing solar in Georgia by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
