Are solar panels transforming the solar energy sector in Russia?

The solar energy sector in Russia is witnessing a significant transformation, marking a pivotal shift towards renewable energy sources. Amidst this change, solar panels have emerged as a cornerstone for solar power generation, fostering a dynamic environment for manufacturers and supply chain centers across the country.

Why should solar companies attend the Russia solar energy fair?

The Russia Solar Energy Fair is another critical event for solar companies looking to expand their footprint in the Russian market. This fair brings together key players from across the solar supply chain, from solar panel manufacturers in China to local distributors and installers.

How to optimize solar generation in Moscow?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Moscow, Russia as follows: In Summer, set the angle of your panels to 39° facing South. In Autumn, tilt panels to 59° facing South for maximum generation.

Is solar energy a good investment in Russia?

Even though demand for solar energy in Russia is low, the Moscow-based company, Hevel, is producing solar modules with an energy conversion efficiency of 22 percent, which is the world's highest. In addition to Hevel, only two other companies in the world produce solar equipment with similar efficiency: Panasonic (Japan), and Sun Power (U.S.).

Does Russia have a solar power plant?

Nevertheless, in the past three years Russia has been rapidly developing solar energy. Kosh-Agachskaya solar power plant in the Republic of Altai was opened in 2014. In 2014, Russia opened its first solar power plant, and the country has 12 today. Soon the 13th will be launched.

Is Moscow a good place for solar PV projects?

The area around Moscow has several large lakes, including Lake Seliger and Lake Nero, which could be suitable for solar PV projects. Areas to the south-east of the city have some higher elevations that could also be suited for larger scale solar PV projects.
