Hello Everybody, I have been struggling to find Fritzing drawings for three modules I use in my project ( a small, solar powered metal detecting robot). I have just found the solar charge module that looks OK I think (I

need to double check the pin spacing). That's in the Fritzing forums. I also contacted a Japanese organisation who seem to have the MX1508 H ...

We built a Yabolnitsky solar oven and decided to add an automatic sun tracking system. It uses an Arduino Uno and follows the sun around during the day, so that the person on cooking duty doesn't have to attend to the oven. Four endstops provide security in case the sun moves out of the movement range of the mirror.
