

Solar panel price in Algeria

How much does solar power cost in Algeria?

Algeria's Hamdi Eurl won two 80 MW plants and domestic PV panel maker Zergoun, alongside Ozgun, secured 80 MW in Guerara. The 19 projects represent an investment of EUR1.8 billion (\$1.96 billion) and the solar power prices proposed by the bidders ranged from EUR0.54/W to EUR0.81/W, with an average price of EUR0.625/W.

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules. Manufacturing hub

Who will fund solar projects in Algeria?

The Algeria government is to fund the solar projects. Sonelgaz has signed 19 contracts with local and international companies to construct solar PV plants across Algeria.

How many solar projects are being built in Algeria?

Representatives of Algerian state-owned utility Sonelgaz have signed contracts with local and foreign companies for the construction of 20 solar projects from two tenders. A total of 19 contracts have been signed by representatives of Algerian state-owned utility Sonelgaz for the construction of 20 solar projects with a cumulative capacity of 3 GW.

What percentage of solar PV installations are in Algeria?

Solar PV capacity accounted for 16.4% of total power plant installations globally in 2023, according to GlobalData, with total recorded solar PV capacity of 1,496GW. This is expected to contribute 33.7% by the end of 2030 with capacity of installations aggregating up to 4,822GW. Of the total global solar PV capacity, 0.03% is in Algeria.
