

# Solar panel shingles Iran

What is a solar roof?

A Solar roof is classified as a lightweight roof, which reduces the requirements for the subroof construction. It only weighs 14 kg. per m<sup>2</sup> and is therefore lighter than most conventional roof types, making it suitable for older roof constructions. Solar roof is Danish developed and produced in the EU.

How does a solar roof differ from a conventional roof?

A Solar roof differs significantly from conventional roof types. A Solar roof - unlike other types of conventional roofs such as tile, slate, felt, etc. - creates value from the moment it is installed, rather than losing value over the years until it needs to be replaced again.

Why do you need a solar roof?

With a solar roof, you can reduce your electricity costs. In the summer months, you can even be self-sufficient if you combine your solar panel system with a battery. This makes you independent of the power grid because you can use your own production instead of buying.

Are there any surcharges on Xolta solar panels?

There are no surcharges. Our price includes Solar roof tiles, cuts, ridges, fittings, cables (including any extension cables used around windows, etc.), and routing to the inverter. If you also buy a Xolta battery, a Xolta authorized electrician is included in the price. And all prices are of course inclusive of VAT.

What is a Solartag roof?

With its integrated solar cells beneath the matte surface, a Solartag most resembles a slate roof. As a screwless roof, it is significantly faster and easier to install - both for the carpenter and for the DIY enthusiasts.

Is Solartag a good roof material?

Our roof has been tested by independent entities, most recently with Wind and Load Testing, making Solartag a viable option, for example, in the Faroe Islands. Solartag is an approved building material, which has obtained an Environmental Product Declaration (EPD).

GAF's solar shingle design combines the conventional asphalt roof shingle material they're known for with the monocrystalline solar cells of a solar panel. The top portion of the shingle is made ...
