With its commitment to clean, independent energy and a vision to elevate people's lives with convenient electricity usage away from bustling cityscapes, ECO-WORTHY continues to steer the renewable ...

Apologies in advance for the many questions. Does anyone have experience with putting solar panels on their house in Japan? We are considering getting an EV as our next car and with the proposed 30-40% increase in electricity cost from tepco, solar panels seem like they would be a good investment but I am hoping to hear from someone who has already taken the plunge.
