How long can a 12V TV run from a battery?

Again provided top end of 13.7v and was able to run 12v TV from the battery for a good 2 hours without decreasing the battery power until the sun started to go down. I haven't tested the panel in lower UV yet however from the performance I've seen so far I don't think this panel will struggle to keep a trickle charge to keep the battery topped up.
