

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500, whereas polycrystalline solar panels cost about £900 per kW.

How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios...

How much does solar panel maintenance cost?

When it comes to solar panel maintenance, it's sensible to pay for an annual service, which will ensure your panels are in good working order and pick up on any issues before they turn into more expensive problems. An annual service typically costs around £150. The most expensive maintenance cost you'll see is the cost of replacing the inverter.

How much does solar panel cleaning cost?

Solar panel cleaning costs can be around £15 per panel. When it comes to solar panel maintenance, it's sensible to pay for an annual service, which will ensure your panels are in good working order and pick up on any issues before they turn into more expensive problems. An annual service typically costs around £150.

What is included in a complete solar panel installation?

Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the following: Solar panel brackets. Solar panel inverter. Solar panel brackets. Installation i.e. labour costs of the installer. Cost of the solar battery storage system (although this is optional).
