

Solar power generation sales contract

What is a solar power purchase agreement (PPA)?

A solar power purchase agreement (PPA) is a financial contract in which a third-party developer owns, operates, and maintains the photovoltaic system, and a customer agrees to purchase the system's electric output from the solar services provider for an agreed-upon price and for a predetermined period.

Do you need a solar power agreement?

These agreements can be related to a solar power lease, PPA, or outright buying of the system. Whenever developing alternate forms of power, it's good to have an agreement with your Provider. This ensures everyone is clear on their roles and responsibilities.

Can a PPA buy a solar project?

Buyer Options to Purchase the Project or Special Purpose Entity. Many utilities have shown a strong interest in owning solar energy projects. In PPAs, this interest often takes the form of an option to purchase the project or the entity that owns it on or after a specified date. Such options should be handled carefully.

How much liability does a solar contractor have?

Therefore, EPC Contracts for utility-scale solar projects cap the Contractor's liability at a percentage of the contract price. This varies from project to project; however, an overall liability cap of 100% of the contract price is common. In addition, there are normally sub-caps on the Contractor's liquidated damages liability.

What is a solar service provider (SPPA)?

With this business model, the host customer buys the services produced by the PV system rather than the PV system itself. This framework is referred to as the "solar services" model, and the developers who offer SPPAs are known as solar services providers.

Are open solar contracts a good investment?

The Open Solar Contracts provide for a standard insurance package, but national regulations can have a very significant impact on the scheme to be implemented, with high cost consequences. The standardisation of insurance schemes is a key factor of bankability and risk management cost mitigation.
