What is Puerto Rico's battery energy storage system?

The Puerto Rico Electric Power Authority's battery energy storage system is a 20,000kW energy storage project located in Puerto Rico. It was announced in 2018 and will be commissioned in 2020. The Puerto Rico Electric Power Authority owns the system (100%).

Does Puerto Rico need energy storage solutions?

"Isolated from typical supply lines, Puerto Rico needs solutions that reduce electricity costs, improve grid reliability, and accelerate renewable energy deployment," says DEPCOM Director of Energy Storage Nadja Gocsek.

How much money is available to install solar & battery storage systems?

SAN JUAN, Puerto Rico -- The U.S. Department of Energy said Thursday that \$365 million is available to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

Can solar power be used as a shelter in Puerto Rico?

A solar power system in its entirety can serve as a shelter in Puerto Rico, according to the person in charge. With abundant sunlight available, solar power has been booming in Puerto Rico since the hurricane. Across the island, individuals, communities, and businesses are installing solar panels and battery systems.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Can solar power save lives in Puerto Rico?

As the battle for Puerto Rico's energy future intensifies, for many ordinary people it's a matter of life and death. Solar power 'can save lives' In Guayama, 72-year-old Margarita Velázquez was diagnosed with COPD, a chronic respiratory condition, a few years after the nearby coal plant opened in 2002. "I stopped being able to breathe.
