A 5 HP VFD (Variable Frequency Drive) solar pump is a type of motor controller that drives an electric motor by varying the frequency and voltage of the power supply. It is a modern solution for converting any existing water pump into a solar water pump. A VFD will switch the power supply to match the energy requirement of drive-driven devices, thus it saves energy and optimises ...

Solar borehole pumps prices vary dramatically depending on the quality of the equipment purchased. A brand like LVTopSun is much cheaper than the Grundfos SQFlex range of solar borehole pumps, although they perform the same function in theory. However, European Solar borehole pumps will usually outperform and outlive most Chinese equivalents ...
