

How much does a smartflower Solar System cost?

If we consider the price per watt for new solar systems is generally in the \$3-\$4 range in 2023 according to national estimates, then a Smartflower system costs between three and four times as much as conventional rooftop solar. And that's with the 40% bump in energy production from Smartflower's dual-axis tracking already factored in.

What is a smartflower Solar Flower?

The Smartflower solar flower is an all-in-one ground-mounted solar system with a tracker that follows the sun. However, it doesn't look like the solar panels you might be used to. Learn all about the product, how it compares to other solar options, and whether you should consider one for your home in our Smartflower solar review.

How much does a smartflower cost?

Near the end of 2017 the original Austrian manufacturer of the Smartflower filed for bankruptcy but the U.S. division remains independent and will continue manufacturing in the United States. The SmartFlower cost is currently \$16,900 for a single unit, but the Smartflower costs \$22,000 for a complete system with batteries included.

What is a smartflower plus Solar System?

The Smartflower Plus is the same system with a solar-powered integrated battery and inverter that can be used to run either a hybrid system or a complete standalone off-grid solar system.

Are smartflower solar panels a good choice?

If you care about design and ease of use more than cost-effectiveness, and also do not need to cover all of your energy needs with one system, then the SmartFlower solar panel system can be a good option for you. Alternatively, a rooftop or traditional ground-mounted solar panel system will be much more affordable and practical for most consumers.

How big is a smartflower solar panel system?

Rooftop solar panel systems may need to be customized to account for several variables like roof type and space availability, but with the ground-mounted SmartFlower module, you have the freedom to install the system wherever there is sufficient exposure to sunlight. The unit itself is 194 square feet.
