Who is Oman solar systems?

About Us - OMAN SOLAR SYSTEMS CO. LLC Oman Solar Systems (OSS) is a pioneer and leader in offering turnkey solutions in solar energy in the Sultanate. OSS was established in 1991. It is a 100% Omani company committed to the industrial and commercial market.

Why should you choose Oman solar?

At Oman Solar, we have latest technology by which we can use NATURAL RESOURCES and convert the NATURAL energy into POWER (ELECTRICAL ENERGY). The solar photovoltaic energy is a most viable solution for reliable and remote application in the region because of the availability of the sun for almost 365 days in the year.

How much green electricity does Oman produce a year?

Oman produces annually over 30,000 megawatt-hours (MWh) of green electricity, or more than a third of the desalination plant's daily consumption. This enables it to avoid close to 300,000 tons of CO2 emissions. This aligns with Oman's National Energy Strategy to convert 30% of its electricity use to renewable sources by 2030.
