

What is the potential of photovoltaic energy in Slovenia?

Slovenia offers great potential for exploiting photovoltaic energy due to evenly spread solar irradiation. The first photovoltaic power plant in Slovenia was set up in 2001. At the end of 2017, 4,231 photovoltaic power plants had been installed in Slovenia with a total power of 267 MW.

Is solarstyle a good company?

I have found SolarStyle a reasonable company to deal with. The original advice, 2 years ago, about our solar panel /battery /car charger installation based on a FoxESS hybrid inverter was sound and the performance is similar to estimates we were given. We did have one or two teething problems but SolarStyle sorted them out satisfactorily.

Who is solar style?

Many thanks Solar Style is one of the North East's leading providers of high quality solar electricity systems and installations for the domestic market. We are one of the oldest standing Solar companies in the UK and just like your new system we are here to stay.

What is a sunstyle solar roof?

The SunStyle solar roof has an extremely low construction height and can be integrated stylishly into any building. Thanks to the broad range of components, it is possible to achieve a homogeneous roof structure and high efficiency. Coloured solar tiles in brick red and slate grey are a new addition to the range.

Are solar shingles durable?

Solar shingles are more durable than most standard roofing materials, even in harsh weather conditions like hail, snow, rain and high wind. At SunStyle, we believe that building integrated photovoltaic (BIPV) products are key to the clean energy transition.

Are you happy with solar style distributions?

More than happy with the service from Solar Style Distributions from James the sales advisor, the guys that fitted the panels and storage, to admin staff. Once we were up and connected over the summer months we have run the house, uploaded to the Grid, made enough money to cover our bills and made a little extra. Date of experience: 24 October 2024
