

Solar support price quote

How do I get a competitive quote for a Tesla Solar panel?

To be considered, a competitive quote for a Tesla Solar panel must be dated within 14 days of order and represent the same financing option (e.g., cash to cash, or financing to financing). It must also include permit and installation costs and cannot include any discounts. The quote must contain the same name and address used to order Tesla solar panels.

How can I get a quote for Tesla Solar panels?

To get a quote for Tesla Solar panels, send a competitive offer to Tesla by contacting us via the Question Center in your Tesla Account. The quote must contain the same name and address used to order the solar panels. Place an order to begin the fulfillment process.

How does a solar system estimate work?

Your solar estimate will show a total dollar cost for the total system size and capacity, typically measured in kilowatts. The total system size and capacity for your home is determined by how much energy you use along with your roof's sunlight exposure, and panel efficiency. System size is shown in kilowatts (kW) or watts (W).

Do solar companies offer a warranty?

Most solar companies offer multiple, separate warranties for each component on a solar system, and there can be hidden fees like shipping fees when replacing a broken panel. With the SunPower Complete Confidence Warranty, one company backs your entire solar system, including battery storage and monitoring.

Are low solar prices a sign of a Solar scam?

Extremely low solar prices can be a sign of a solar scam. Charging way below average isn't sustainable, and the solar company could go out of business before the 25-year lifespan of your system is up.

Are solar reviews a good company?

SolarReviews has a network of over 700 pre-screened solar pros who will provide an exact price for the system your home needs. They are among the highest-rated solar companies in America. Most are local and family-owned, offering much better customer service than large national solar companies.

Current panel prices fluctuate regularly - so don't be surprised if your quotes are only valid for short time. Note that the above assumes the use of 415W solar panels, so the final solar panel capacity may be a bit more or less ...
