The photovoltaic glass selected for the Dubai Frame was an ideal choice due to its ability to blend cutting-edge technology with the iconic design of the structure. The golden hue of the photovoltaic glass panels complements the luxurious aesthetic of the building, while the glass itself provides exceptional functionality by reducing solar heat gain, contributing to energy savings in Dubai's ...

Also, these solar jobs will not be outsourced to India or China. These skilled, well-paid jobs will stay in Costa Rica. This is unlike the call center industry, which is threatened by the constant improvements in technology being created by the Speech recognition AI industry and by the de-centralization of work resulting from changes wrought by Covid-19.

A photovoltaic system can take anywhere from 3 to 5 years to pay for itself in Costa Rica, therefore a warranty less than 10 years should be unacceptable. The solar panels themselves should have a reliable warranty of 20 to 25 years, covering degradation (annual decreased efficiency) of no more than 3% a year.
