Oranjestad, Aruba, situated at latitude 12.5147 and longitude -70.034, is a highly suitable location for solar photovoltaic (PV) energy generation due to its consistent sunlight exposure throughout the year. The average daily energy production per kilowatt of installed solar capacity in each season is as follows: 6.87 kWh in summer, 6.53 kWh in autumn, 6.07 kWh in winter and 6.94 ...

Solar and wind energy are clean forms of energy which can help reduce the generation of electricity using oil. Using renewable energy to save energy is a relative simple concept. When there is sun, the solar panels will produce energy and the customer uses this energy instead of the conventional energy from the grid.

Better Solar Aruba delivers affordable solar solutions for your home and business. Our motto is: Free energy for Aruba. We can provide and install a complete solar solution or you can choose from our Cash & Carry packages.

Home Welcome to the web site of Green Solutions Aruba. We provide energy efficient solutions to households and businesses.
