Does NEC provide solar energy in Namibia?

NEC has been promoting solar energy in Namibia since the early 1970s and offers solar system solutions for both domestic and commercial applications, including solar water heater systems and solar PV systems to generate electricity. Solar energy is a free energy source and will never disappear.

Why should you choose Solahart solar energy in Namibia?

Solahart is a trusted brand with over 65 years of experience as Australia's energy experts and has installed more than one million solar panel systems around the world. They offer quality, efficiency, and long-term reliability. If you need solar energy in Namibia, choose Solahart.

What are solar grid tied systems & off-grid systems in Namibia?

Solar Grid Tied Systems and Off-Grid Systems are two different types of solar energy systems in Namibia. In Grid Tied Systems, the solar energy generated by the solar panels is converted to AC power by the Grid Tied Inverter and fed into the AC Grid. Because of the technical conception of Grid Tied systems, the energy generated is consumed immediately.

Which battery is best for a solar system in Namibia?

In Namibia, lithium-ion batteries are typically the best option for a solar panel system.

Does solar installation work?

Whether commercial, home on or off-grid, we have a proven method of installation that works. We have installed more than 2000 solar systems across the country and that experience has become proficiency. Our process has been tried and tested. And as new technologies emerge, we continue to find better ways of giving the best value.

Why should I hire a professional for my solar system?

Hence it is of utmost importance to have your proposed solar system designed and sized by a qualified professional. As a company, we have successfully completed close to a thousand installations over nine years with each project different in size and scope. We have done both commercial and home installations, on and off-grid setups.
