Yes, a repair service can be an opportune time to upgrade components of your solar system. Upgrades can include more efficient panels, a newer inverter, or adding battery storage for increased energy independence. We can talk to you how this may or may not impact your current NEM agreement.

If your solar PV system is not providing the power output it was designed for, you might just need a service call to get it back on track. At Power Shift Solar, we field a service and repair team that is experienced and capable of bringing your system back to peak performance. Over the years there have been many solar installation companies that have come and gone.

While most solar companies install new solar systems, they don't stick around to service and maintain them. At Solar Service Guys, we keep them working smoothly and cost-effective for years to come. As Australia's solar panel service and maintenance experts, we ensure your whole system is safe and functional to maximise your energy savings.
