

The products included in the waiver include (but aren't limited to): inverters (to convert direct current to alternating current), solar panels, solar panel mounts, charge controllers, deep cycle batteries, solar batteries, and transfer switches. For more info about Antigua and Barbuda, visit the government of Antigua and Barbuda website.

The Green Barbuda project aligns with Antigua and Barbuda's goal to meet 86 percent of its electricity sources from renewable energy by 2030. The bespoke project combines a hybrid solar photovoltaic (PV) plant with 720 kWp of solar PV panels connected to an 863 kWh battery, capable of meeting the island's current daytime energy demand.
