

Does Solis offer a warranty on solar inverters?

Solis now match the market expectation of providing a full 10-year warranty for their inverters. In the event of a Solis replacing an inverter, customers must bare the cost of returning the solar inverter to Solis Australasia, which is presumably to their Melbourne office.

Is Solis a good company?

Solis is one of the top solar inverter manufacturers in the world, and a company that focuses on string inverter innovation. This year is Solis' 15th year of operation and the company's mantra has always been the same - 'Developing technology to power the world with clean energy'. Why are Solis products so popular around the world?

What type of solar inverter does Solis offer?

Solis offers a range of single-phase inverters, including the S5 and S6 series. The S5 series covers a power range from 3kW to 10kW, with a maximum efficiency rating of 98.0% on the larger inverters. The 7kW to 10kW S5 inverters come with 3 MPPTs offering greater flexibility to solar designers to maximum the solar panel coverage of the roof.

Are Solis inverters reliable?

Solis inverters are equipped with the highest quality components and the company is the first inverter manufacturer to pass the PVEL (formerly DNV-GL) reliability test in the USA, having also won the TÜV Rheinland 'All Quality Matters' award for two consecutive years in 2019 and 2020.

How many Solis inverters are there in Australia?

There are 92 of Solis Inverters (under the name of Ginlong Technologies Co Ltd) approved by the Clean Energy Council for the Small-scale Renewable Energy Scheme, which is Australia's home solar rebate program. The majority of the listed inverters are available in Australia.

What is a Solis 50kW inverter?

The Solis 50kW inverter has 4 MPPT designs meaning 4 separate solar arrays can be connected to each inverter. Each inverter has a maximum operating current rating of 28.5A, meaning it is compatible with high-voltage solar panels commonly used in solar farm installations.

Guinea-Bissau. Case study: Solar Home Systems for rural development of Guinea-Bissau . Publication date: 2022. Author: ALER.
