

Solix f3800 Brazil

Does Anker Solix f3800 have backup power?

Enjoy seamless transition to backup power with Anker SOLIX F3800 and keep life powered on. It's built to power multiple appliances simultaneously with up to 12,000W output and scalable storage up to 53.8kWh. The battery even automatically charges if severe weather is forecasted. Even if there's an outage, you'll wouldn't know.

How long does an anker Solix f3800 battery last?

Long-Lasting 10-Year Lifespan: Anker SOLIX F3800's battery is built to last over a decade, even with everyday use, thanks to Anker InfiniPower technology. The power station also features EV-class LFP batteries, durable components, and a smart temperature control system.

What are the specifications of Anker Solix f3800?

Anker SOLIX F3800 has a battery capacity of 3,840Wh. It supports Wi-Fi and Bluetooth. It is not waterproof.
Product Specs:

Can a f3800 connect to a solar panel?

While it's possible to just plug the F3800 into the wall and wait for the power to go out, it can also tie into a home's solar panels, which made it more appealing as a long-term option. The real benefit is that I can, now or in the future, install a subpanel on my electrical panel and wire the F3800 to it.

How long does it take a f3800 to charge?

We had a run of 70-degree, cloudless days here unusually early, and the F3800 achieved an 80% charge after seven hours of sunlight. The rate at which the sun can charge something like this is highly variable, changing with factors like placement and weather conditions.

Before using Anker SOLIX F3800 for the first time, you will need to charge it. Please find the following specifications for US version F3800. If you have any questions, feel free to contact Anker Customer Support for further assistance.
