

# Solix x1 price Isle of Man

What is the Anker Solix X1?

The Anker SOLIX X1 looks like a sleek stack of batteries but is actually made up of three separate components that each perform important system functions: the power module, battery modules, and backup controller.

Does Anker Solix X1 have a warranty?

The Anker SOLIX X1 warranty covers the battery for 10 years and 3.29 MWh per kWh of throughput, which are both good. However, Anker promises only 60% remaining battery capacity after 10 years. While this slight deviation from the standard isn't a dealbreaker (especially considering the low estimated cost to install the system), it isn't ideal.

How much does an Anker solar X1 cost?

We estimate that a 15 kWh SOLIX X1 system will cost about \$9,750 before installation costs. Anker does not publish the cost of the X1, so our cost estimate is based on what our experts know about the pricing of Anker's consumer-grade solar battery backup systems.

How many parallel systems can Anker Solix X1 support?

1. The estimate is based on Anker SOLIX X1's hybrid three-phase 12kW power module. 2. The hybrid three-phase model supports up to 6 parallel systems and is planned for release in Q4 2025. The single-phase model supports 3 and is planned for release in Q2 2025. In traditional battery packs, your weakest battery affects the entire system.

How much does the Anker X1 cost?

Anker does not publish the cost of the X1, so our cost estimate is based on what our experts know about the pricing of Anker's consumer-grade solar battery backup systems. That estimate equates to \$650 per kWh of storage for the whole system, which is significantly less than the average cost of solar batteries.

How long does Anker Solix X1 battery last?

The industry standard is 10 years of materials and workmanship coverage, an average of 6,000 total cycles or 2.9 MWh of throughput per kWh of battery capacity, and a remaining capacity of 70% after 10 years. The Anker SOLIX X1 warranty covers the battery for 10 years and 3.29 MWh per kWh of throughput, which are both good.

How much does the Anker SOLIX X1 home battery cost? We estimate that a 15 kWh SOLIX X1 system will cost about \$9,750 before installation costs. Anker does not publish the cost of the X1, so our cost estimate is based on what our ...
