Nigeria has a huge power supply gap. About 60 percent of its 200 million people do not have access to electricity. And most who are connected to the national grid only get limited electricity at the best of times. This situation persists partly because the country's power infrastructure hasn't kept up with population growth. Demand ... Continue reading Brands We ...

St Helena Island in the South Atlantic Ocean is one of the few remaining untouched destinations left in the world. Until recently, the remote tropical British territory had only been accessible by ship, with commercial flights starting only in 2017 from the new St Helena Airport built as a green field development.

St Helena has also made a commitment to run the island on 100% renewable energy by 2022. By so doing, we are demonstrating our commitment to tackling the risks from climate change and, even though we are a small island in the middle of the South Atlantic, we can become an environmental beacon

Solynta Energy | 4,202 followers on LinkedIn. Powering Nigeria With the Sun | ABOUT US Solynta Energy is Nigeria's leading provider of Residential and Commercial Solar Power Systems.
