

# South Georgia and South Sandwich Islands solar quotes battery comparison

Is Georgia a good place to invest in solar?

Initial solar investment is substantial, but long-term savings and energy independence are significant benefits. Georgia is committed to leading the Green Revolution, with ambitious renewable energy goals. So, you probably might have heard the term "peak sun hours" tossed around in solar circles, but what's the big deal?

Is Georgia a good place for solar panels?

You see, Georgia's position on the map isn't just great for those summer barbecues. It's prime real estate for soaking up the sun's rays. With an average of 215 sunny days a year, it's no wonder solar panels here get a real workout. And guess what? That's a lot more sun than many other states can brag about! It's not just about the sun, though.

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.

Does Georgia have solar loans?

Georgia also has solar loans through the Go Energy Financial Credit Union's HomePlus loan program. Customers who receive electrical service through Walton Electric Membership Corporation with good credit scores and payment histories may qualify. Compare popular solar companies available in Georgia below.
