We are headquartered in Kingston, Ontario, Canada, where the Company was founded in 2009 by Dr. Praveen Jain, Canada Research Chair in Power Electronics, and his team at the ePower Labs at Queen's University. We also have a growing team in the United States! Check us out at

Who are Eswatini's trade partners?

Eswatini's other key trading partners are the United States (under the African Growth and Opportunity Act) and the EU, from whom the country has received trade preferences for apparel exports to the U.S. and for sugar to the EU.

Where is Eswatini located?

At no more than 200 km (120 mi) north to south and 130 km (81 mi) east to west, Eswatini is one of the smallest countries in Africa; despite this, its climate and topography are diverse, ranging from a cool and mountainous highveld to a hot and dry lowveld. The population is composed primarily of ethnic Swazis.

What does Eswatini stand for?

In April 2018, the official name was changed from Kingdom of Swaziland to Kingdom of Eswatini, mirroring the name commonly used in Swazi. [12][16][17] Eswatini is a developing country that is classified as having a lower-middle income economy.

What institutions are in Eswatini?

In addition to these institutions, the kingdom also has the Eswatini Institute of Management and Public Administration (SIMPA) [139] and Institute of Development Management (IDM).

Set DC System Size to 1. If mounting the system on your roof, enter the Tilt (slope) and Azimuth (angle rotated from north). Click on "Go to Results". Divide the annual energy from step 1 by the PV Watts result to get the system size in kW needed to offset all of your electricity usage. Example: Annual energy = 5,600kWh; PV Watts results ...
