In an unprecedented move, United Solar Group is spearheading the Sri Lanka Solar Housing Project. This monumental effort will see the construction of 100,000 solar-integrated homes, significantly boosting the national grid with an addition of 2,600MW of power. Supported by a \$4 billion investment, this project is more than a response to housing ...

Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.
