

St Kitts and Nevis power energy company

Who owns the St. Kitts electricity company?

The St. Kitts Electricity Company is owned by the Government of St. Kitts and Nevis and is run by a board of directors. The Government of St. Kitts and Nevis owns the St. Kitts Electricity Company. It has an installed capacity of 48.9 MW with 15 diesel generators at its Nevismust Power Plant. Peak demand ranges from at 20-28 MW, with base load between 14.6-16.2 MW.

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

Does St. Kitts have solar power?

St. Kitts has both grid-powered induction lighting and solar-powered street lights in place along roadways. A 1 MW solar photovoltaic farm offsets 100% of the electricity at the main airport.

How much energy is lost in St Kitts & Nevis?

Reports indicate that in St. Kitts and Nevis, higher losses are largely attributable to nontechnical losses such as unmetered consumption, leading to losses that are higher than the U.S. Energy Information Administration's average transmission and distribution loss of 6%. By comparison, the U.S. Energy Information Administration reports an average transmission and distribution loss of 6%.

Does St Kitts & Nevis rely on fossil fuels?

St. Kitts and Nevis is heavily reliant on fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity. The government subsidizes the fuel charge for residential customers, partially shielding that sector from price volatility.

The two islands have completely separate energy systems - the St Kitts Electricity Department is a government-owned utility company responsible for the generation, transmission and distribution of electricity on St Kitts. The Nevis Electricity Company is a public-private company that provides the same services on Nevis.
