

St Kitts and Nevis solar systems

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

How much solar energy does St Kitts use?

In St. Kitts and Nevis, the solar resource averages 5 kWh per square meter. Solar energy is already being used for grid-powered induction lighting and street lights along roadways. A 7 MW waste-to-energy power plant is planned to come online on St. Kitts in 2015.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

Do I need a voltage converter in Saint Kitts and Nevis?

If the standard voltage in your country is in the range of 100 V - 127 V (as is in the US, Canada and most South American countries), you need a voltage converter in Saint Kitts and Nevis. You can find voltage converters at Amazon. You can also consider a combined power plug adapter/voltage converter.

Excerpt from leclanche . The Government of St. Kitts and Nevis, the state-owned St. Kitts Electric Company (SKELEC) and Leclanche & SA (SIX: LECN) today broke ground on a landmark solar generation and storage project that will provide between 30-35% of St. Kitts baseload energy needs for the next 20-25 years while reducing carbon dioxide emissions by ...

4 ???· by Eulana Weekes St. Kitts and Nevis (WINN): The Nevis Electricity Company (NEVLEC) will develop a grid code to ensure the safety, solidity, and efficiency of the electricity supply in Nevis.
