Who is SPIC solar?

SPIC Solar has been focusing on BC technology since 2017 and has been collaborating with ISC since 2019, adopting the proprietary Zebra IBC solar cell technology. It has now become one of the world's major suppliers of BC products, offering high-efficiency BC solar cells and modules for various scenarios.

What has SPIC done for the solar industry?

st 2016. Over the past four years, SPIC has been pushing forward quality development of the solar power industry, with a total installed capacity of 29.61 GW, ranking first in t

When will Xingchuan demonstration photovoltaic power station be completed?

It plans to complete the solar park by September 2023. SPIC said it completed the pilot solar power plant near the town of Zhengdou, in China's Sichuan province. The Xingchuan Demonstration Photovoltaic Power Station is the first unit of a 600 MW project that SPIC is building in the area at a planned cost of CNY 3.2 billion (\$444.2 million).

How much solar power does SPIC have?

Of this installed power, around 10.28 GW was for solar installations and approximately 11.58 GW for wind farms. At the end of last year, SPIC reached a cumulative clean energy capacity of 98.88 GW, of which 60.49 GW is solar, which makes the company the largest PV asset owner in the world.

Where is SPIC solar made?

SPIC Solar currently produces IBC panels and the new TBC product at its two manufacturing facilities, which are located in Xining, Qinghai province, and Xi'an, Shaanxi province. This content is protected by copyright and may not be reused.

When will SPIC complete a solar park?

SPIC plans to complete the solar park by September and said that it will become a technological benchmark for all future solar parks built at high altitudes. China Daily has reported that the plant was originally designed to have a capacity of 400 MW. This content is protected by copyright and may not be reused.

State Power Investment Corporation (SPIC) has put into operation the world's first offshore floating solar power plant integrated with offshore wind turbine, at a site located ...

At State Solar Corporation, we are committed to advancing the shift to solar energy, aiming to make it the default choice for homeowners. With our presence in over 30 states and a mission ...
