Once the single panel is pushed into place, motorized top and bottom seals activate. This results in a motorized glass wall that always provides a constant and perfect seal. Maximize acoustics ...

Breaking Down STC Solar Panels. When I talk about solar panels, there's a term that always comes up - STC solar panels. This stands for Standard Test Conditions. It's a set of rules used to check a solar panel's power. These rules help us compare panels fairly because every panel is tested the same way. Defining Standard Test Conditions ...

The X-SERIES highlights the glass component of a partition and minimises the aluminium frames to create a very lightweight and contemporary appearance. A beautifully beveled door frame integrates seamlessly with adjacent glass panels. X-SERIES answers all the design and technical criteria required of an office.

Lightweight ultra stylish bodywarmer 60 gsm hi density downproof minature polyester ripstop Durable water repellent 160gsm wadding Brushed back polyester stretch side panels 2 side pockets Modern design, versatile mid or outerlayer to ...

The STACKADE System is a unique sliding, space dividing solution which can efficiently and effectively transform your workplace. Its contemporary aesthetic and easy-to-use cascading panels have been designed to ensure maximum acoustic performance. This new system utilizes floor tracks to provide a dynamic, user-friendly alternative to the operable wall and allows you ...

The GT consists of ultra-slim and contemporary glass panels. This composition guarantees the tranquility, privacy, and sleekness that employees nowadays seek. While door hinges are specifically designed to ensure maximum acoustic performances, the ultra-slim glass panels give a modern look to any office through natural lighting and transparency.
