Plus, although Eswatini's electrification rates are relatively high, they are still a long way off 100% (the country's target for 2022). So, Eswatini looks towards renewable energy to help meet its electrification goals and save costs down the line -- and solar is the most viable solution.

The Eswatini Energy Regulatory Authority (ESERA) invites expressions of interest from private developers for the Bulimeni Solar PV-Battery Mini-Grids Project. This initiative, part of the Africa Minigrids Program (AMP), aims to enhance clean energy access in Eswatini's remote Bulimeni community. Submissions are due by August 23, 2024.

Background. A Swazi kingdom was founded in the mid-18 th century and ruled by a series of kings including MSWATI II, a 19 th century ruler whose appellation was adopted to become the name of the country and its predominant ethnic group. The kingdom's modern borders were defined by European countries during the late-19 th century and Swaziland (as it ...

The Eswatini Energy Regulatory Authority has invited mini-grid developers to express interest in the design, construction, operation and maintenance of the Bulimeni solar photovoltaic-battery mini-grids project. The Bulimeni community of the Shiselweni region, comprising 92 households with 60 designated to receive mini-grid power, has been chosen ...

energy future," said Frazium Energy director Robert Frazer. "We believe in the strength of Eswatini's future." The company intends to invest beyond the EUR100 million already committed for the solar-storage project in the coming years, Frazer added. "Africa's largest battery is coming, and it is coming to Eswatini.
