

Sun culture solar Bolivia

Who is sunculture?

Welcome to SunCulture At SunCulture, we strive to solve the biggest daily challenges of smallholder farmers. We use off-grid solar technology to provide our customers with reliable access to water, irrigation, lighting, and mobile charging, and we can do all of that with a single system.

Why should you choose sunculture?

With SunCulture, you can increase your crop yields by 300% and reduce your water usage by 80% with a simple push of a button. We also offer a Pay-As-You-Grow option that allows you to pay in small monthly installments. We have high standards of quality for both our solar pumps and services.

Does SunCulture sell Agrosolar Irrigation Kits?

SunCulture, based in Nairobi, Kenya, sells the AgroSolar Irrigation Kit (ASIK), an entirely solar-powered drip irrigation system. SunCulture offers this product for farmers to make it easier and cheaper to grow a wide variety of crops.

How important is sunculture's weather model?

SunCulture's weather model and potentially in the future yield models, as well as data such as water table depth maps, represent highly valuable data to lenders and insurers, and other players across the agricultural and environmental value chain.

El Sun Stick Vegano TOCOBO ofrece protecci3n solar con un acabado suave y transparente, perfecto para pieles sensibles. Enriquecido con Extracto de Algod3n e AC Herb Complex(TM), hidrata, calma y controla el sebo sin dejar sensaci3n pegajosa. Ideal para aplicar varias veces al d3a sin obstruir los poros.

RainMaker is available in Kenya for 480 U.S. dollars including solar pump, controller, battery bank, portable solar panel and sprinkler. According to the firm, four out of five African families depend on agriculture for their livelihoods, but just four percent use irrigation with the rest relying on increasingly unreliable rainfall.
