

Does the Faroe Islands have a solar park?

The Faroe Islands have a solar park with a 250 kW capacity in Sumba. It is expected to produce 160 MWh/year (i.e. a capacity factor of 7.3% and equivalent to 35 tons of oil), mainly in the summer when rain and wind are low.

Should the Faroe Islands be self-sufficient?

Isolated in the North Atlantic Ocean, the Faroe Islands need to be self-sufficient in terms of electricity generation as the Faroese electrical grid is not interconnected to neighbouring countries. SEV operates six hydro power plants, three thermal power plants, three wind farms and one solar power plant.

Why is SEV the main power supplier in the Faroe Islands?

SEV is the main power supplier in the Faroe Islands. We operate on 17 of the 18 islands that constitute the Faroe Islands. Isolated in the North Atlantic Ocean, the Faroe Islands need to be self-sufficient in terms of electricity generation as the Faroese electrical grid is not interconnected to neighbouring countries.

What's new at the Sund power plant in Faroese?

MAN Energy Solutions has completed the expansion of the Sund power plant near Tórshavn, the Faroese capital. With this, four MAN 9L51/60 engines have been successfully integrated into the islands' hybrid energy-system and will complement the existing power station with an additional 37 MW power generation, as well as district heating capacity.

How many wind farms are there in the Faroe Islands?

Furthermore, external suppliers operate one wind farm and one biomass plant. Total installed capacity in the Faroe Islands is 163 MW and total power generation in 2019 was 386 GWh. Max demand was 63.1 MW in November 2020. In 2018, 49% of power generation came from renewable sources, i.e. hydro and wind power, respectively.

Who produces electricity in the Faroe Islands?

SEV, the municipality-owned company, produces approximately 90% of the electricity in the Faroe Islands. Wind power was introduced in 1993, initially producing as little as 423 MWh, but rising to 90 GWh by 2022.

Angetrieben von der Vision "Making more power", glaubt Sunpal, dass Innovation der Schlüssel ist. Wir entwickeln ständig hocheffiziente Solarmodule und die besten Solarsysteme, um die wachsenden Marktanforderungen zu erfüllen. Und unser 10 GW Rekord an Solaranlagen weltweit ermutigt uns, weiter auf eine nachhaltige Zukunft hinzuarbeiten.

Feel the Power of Fossa Waterfall. Fossa Waterfall, located just about an hour north of Tórshavn on the Eastern side of Streymoy Island, is the tallest waterfall in the Faroe Islands. The waterfall is 140 metres tall and
